

## **Create Laughter and Joy**

Is there anything special that we should do to prepare for the Lord's return and approximately when might this be?

Answer 6 : The preparation will come in the creation of an atmosphere of joy, if there might be the description of that word as opposed to religious laws, philosophies, symbols, even that you often called spiritualism and the diligent attempts and efforts to contact planes and beings and such. If you create only smiles, laughter, joy, on your plane, setting aside and leaving off all of such difficult to understand, the doctrines, and speculation and such, and create only laughter and joy and come as little children, you create that atmosphere and He will come. And has He not said that even He will not know the day or the hour, but those making the preparation, perhaps we should ask you.

For it will be you, on your plane, in the sharing, that will create that atmosphere that will allow the coming again of the Son of Man, that of the Messiah, that will change the race.

Let it be not a single man in this time but the Race Himself, The Son of God in that greatest sense, as to when?

Now whether there come the Prince of Peace to establish His Kingdom and reign among you, or whether He not, before that period of '88,89 there still will be restructuring of this planet,- the preparation for a new dawn, a new day, a new heaven and a new earth.

You'll need to understand, as few have, that the two events do not necessarily coincide. For the Prince of Peace will establish His Kingdom.

Will it be on your earth as you know it? Will it be on the new earth?

Dependent entirely on the receptivity of the people, and the preparation. Usher in, if you will, that New Day, by inviting His Presence among you, such a life among you, that the Master of Master already walking among you, will surprise no one when He takes visible form don't you see?

Create His Presence in such a real way that He becomes visible among you, and He has returned. Let yourself receive that understanding; and we here be gratified and rejoice with you.

We go for now. Blessings.
