

## The Current World Crisis

Public Reading, Nagoya, Japan September 1st 1991

Q-1. You will have before you the Records and the enquiring minds of these people gathered here, the nation of Japan and the Records related to World Prophecy. You will give relationship to Universal Forces and comment on purposes and direction. Please allow for translation by stopping after each sentence. Please answer questions as I now ask.

A-1. Yes, we have these Records, and we would help you to see the world balance changing in this manner.

Be not so concerned with changes in the Soviet Union<sup>[1]</sup> at this time, rather be aware of the alliance of the world of Islam, for this world is the fastest growing cohesive element.

And understand recent events in this manner:

That much of what you have seen as may be scandal in economics has come as a result of the dominance of commerce and banking by western businessmen associated with Christianity and Judaism.<sup>[2]</sup> This is especially significant to the world of Islam who attempted in what you have called BCCI <sup>[3]</sup>Scandal to assert itself as a new alignment of nations begins to form. It is because of this that we have warned in previous times of a Jihad or Holy War toward the end of this century.

....There has ... been an unfair manipulation of economy to exclude the Islamic World. Thus in the re-alignment of nations, Islam tends (to see this) as an attempt to isolate that sector. (Unless the powerful nations of the world) overcome differences attributed to religion, a Third War...is virtually inevitable (as) these forces align (to) create what appears to be a Holy War.

The opportunity to avert such a Holocaust comes in more appropriate alliances with those countries (and) the overcoming of fear and misunderstanding in the Western World toward Islam.

As to the role of <sup>[4]</sup>(the United States and) Japan, there is a difficulty here, as well, in economic alliances, for you will find that much of the world's resource and money is to be found in those countries which are largely excluded from banking and economics. There is a massive cartel of control by them which attempts to limit Japan's role in economics. Much of this you have already seen.

During this period of realignment of nations, it is important that you reach out not only to western nations, but will find a need for a balance - an awkward balance, perhaps - with the Islamic world as well. If you then would play a meaningful role in assisting the development of those countries, to reduce the anger of isolation and prejudice.

For you will find an Islamic leader emerging, and this will lead to that we have spoken of before, an attack on Israel, which will be a major threat of the use of nuclear arms. The recent war<sup>[5]</sup> is a portion of the balance of which we speak, and will be re-encountered.

Do not underestimate the power of those who know how to pray and meditate to change the consciousness. Would offer prophecy as opportunity that you should change such outcomes.

... Then our comment to you would be:

Accept responsibility for that you create with your lives. This world has been a world ruled by fear. Fear is the destructive energy. A divided or bicameral mind can only create destruction. It is through the building of the Unified Mind that man may build a unified technology and learn to build energy rather than destroy matter for the release of energy.

If that principle is understood, you will know that Love is greater than fear, that the force of Life is more powerful than the force of death, and that man cannot ultimately destroy this planet, for this is a Living Being that is a Body of God. That which is created cannot destroy its creator. Therefore you should then ever give hope, not give anxiety.

That is our message. It is meant to be encouragement and blessing and not to be taken as warning.

**Paul Solomon Reading 9418 - RP - GR – Nagoya Public Reading, Japan, September 1, 1991**

<sup>[1]</sup> This Reading was done at the time of the break-up of the Soviet Union.

<sup>[2]</sup> According to Paul, the business practices currently called “scandalous and illegal” in the West, were simply a part of the way Arabs and Moslems normally do business.

<sup>[3]</sup> BCCI – Bank of Credit and Commerce, the banking system of the Arab world.

<sup>[4]</sup> Since this particular Reading was done in Japan, the emphasis of course is on Japan. The United States was mentioned in similar context in other readings, and we thus felt it was permissible for clarity to add the United States.

<sup>[5]</sup> “Recent War” refers to The Gulf War, which occurred in the early part of 1991.
