

# A Letter from Sharon Solomon

Dear Friends,

I am thrilled to announce that I have met two incredible men who will produce a movie on **The Life and Teachings of Paul Solomon**. I believe that they were sent by God to undertake this massive project, and I want all of you – members of our Fellowship Family – to know about what is happening. I will keep you informed as our plans progress and will ask for your input.

Meanwhile, you can support them in this most important undertaking and become acquainted with the talents, skills and knowledge of these two men - the Marten brothers, Richard and Ethan – through their current movie production “WHITE Buffalo: An American Prophecy.”

The time spoken of in the prophecies is upon us. Many cultures and prophetic traditions around the planet, as well as respected spiritual teachers such as my late husband Paul Solomon, have made us aware of the great shifts ahead. One such prophecy is that of White Buffalo Calf Woman. Long, long ago she came to the Lakota Indians with a sacred promise: that when the white buffalo calf is born, a new race will appear, ushering in a time of peace and harmony for all humanity. "*WHITE BUFFALO: An American Prophecy*" is a film about that very important prophetic message – a message of positive choice with regard to the co-creation of our future in these momentous times. It is happening right on time and in accordance with Divine will. This documentary is being created in order to help awaken all of humanity to the truth of the Great Shift, the changing of the ages, the awakening of humankind to the Oneness of all Life as it has been foretold for millennia. That time is upon us now.

The Red Nations of North, Central and South America ask us to remember their great wisdom as they speak to many around the world. They are providing guidance and understanding of their (and our!) mission at this time - to bring about the Golden Age. They speak of our returning to our hearts, and changing our thoughts and emotions to be in harmony with Spirit's unconditional love for all beings.

There are those who would have us believe that the shift into a new era is filled with gloom, doom and destruction. Seers such as Nostradamus, Edgar Cayce and Paul Solomon did receive visions of Earth shifts, volcanoes, tornadoes, earthquakes, hurricanes, fires, droughts and floods. To be sure, we will see major shifts in the coming days as we head into the Age of Light, such prophecies are in harmony with biblical warnings . However, we must understand that a fulfilled negative prophecy is a failed prophecy and it is up to us to help modify the shifts of our sweet planet. We can help her to balance the elements of earth, air, water and fire to allow her to make the transition in a gentler manner.

I am very pleased to inform you that, following the completion of WHITE BUFFALO, the Producers will segue into the production of a project based on the life and teachings of my husband, the teacher and prophet Paul Solomon. What the world needs desperately now is an awakened people with a fresh vision of hope and healing for this troubled planet. The Marten brothers are such people. With great courage, and wide experience in the art of cinema, they have been traveling far and wide with the intention of making bold, compassionate statements through the medium of film. You can be sure that anything they produce will be full of wit, wisdom and a deep understanding about the human family and our times.
