One step further will be required of thee in that development that would put on the Whole Armor of God, that you would look about in the home, and see the reflection of that which is in the mind, the spirit. And taking the hands lovingly this night with the mate, would you put each thing in its place, removing those that have no place, removing those that have no place in the home. But see the home as the mind, as the temple of God. That shell in which you place the physical body would be the outer manifestation, the writing, the handwriting as produced by the mental forces, or the spirit that cannot be seen. But the spirit, the soul, the Akasha builds about itself indications, symbols of that which exists thereof. And where you would see untidiness or that you would not have revealed before the Christ Spirit, before His angels, remove it then from the environs and so cleanse the aura; cleanse the heart, and enjoy so doing. But make the environs neat; make them tidy. Set things aright and know that in the heart, in the mind, in the spirit, so you are beginning to function efficiently and the thoughts, the understanding will not be so cluttered.

But you can accomplish on the outer planes, in the environs, so you accomplish in the heart, in the thinking. And enjoy; enjoy the life, the love that is given about, and destroy confusion, so destroy the power of Satan. Destroy that power of the anti-Christ in the life, and become His man. So in the clothing, in the body, produce that cleanness that would be the outer manifestation of the cleanness of the heart, the thinking the spirit.
